

Dear colleagues,

I'm Averil Huck, I'm working on the Horizon 2020 funded-project [GENDERACTION](#). I would like to invite you to cooperate on one of our tasks, which is to **develop international coordination of Gender & Science structures and strengthen gender mainstreaming in science, technology, and innovation (STI) systems**. To do that, we have already identified 97 Gender & Science structures outside the European Union. But we would like, with your help, to update and expand this community!

Why? The international coordination of Gender & Science structures outside the EU is considered to be crucial for facilitating effective incorporation of gender mainstreaming in international STI cooperation, given that these structures can provide support during negotiation, implementation, and monitoring phases of multi- & bi-lateral cooperation initiatives or in international R&I projects under [Horizon Europe](#), the latest European Research Framework Programme. This network of G&S structures will serve as a **database of contacts for international R&I projects under Horizon Europe and international science policy-makers** in order to advance gender equality in international STI cooperation.

How? We invite you to add relevant organisations from your country or region. Check out the list first to make sure it's not already there. Please provide us with, if possible, the relevant information about them. Contribute as much as you can, partial information is already great! Please note that the spreadsheet will be open for editions until the **28 February 2021**.

Here is the link to the Google spreadsheet:

<https://docs.google.com/spreadsheets/d/1D7i6CaE82Z8jl-C0UPLPq4p2M0t2Y5dgvOhOJrRGr3s/edit?usp=sharing>

If you do not wish to contribute directly to the shared Google Spreadsheet, you can send me an email or contact me on Twitter:

- Email address: averil.huck@soc.cas.cz
- Twitter account: <https://twitter.com/AverilHuck>

Please do not hesitate to further distribute this call with your network and on social media!

Thank you very much for your cooperation!

Project duration 1st April 2017— 31st March 2021

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 741466.
